Time Management
Empathy

ING. Erick Roberto Silva Molina

FrontEnd Developer

Vue.js, Angular, React.js, React Native, Nuxt, TS, Node.js.

Continuously pursuing growth through the latest advancements in web technologies and always seeking opportunities to innovate and enhance user experience.

Work Experience

Front End developer

Ilum Ventures

September 2022 - Present

Developed and maintained web and mobile apps using Vue.js, Angular, React.js, React Native, and Nuxt 3, enhancing user experience and performance across projects.

- Improved UI/UX fidelity, implementing best practices and optimizing Agile workflows.
- Optimized frontend architecture by introducing component atomization, props, and local variables, boosting code readability and development speed.
- Expanded into full stack development with Node.js, contributing to both frontend and backend functionality.
- Proposed and lead Oxbi as Tech Lead, driving the project's technical direction and achieving milestones ahead of schedule.
- Tech Lead at ImmersioVR project Initiated and built the project

Current projects:
app.nexumlegal.com.mx, zaturna.com, ilum.vc, ilumps.com, www.oxlogistic.com, www.immersiovr.com

Front End developer/ UX Designer

GAUZZ MKTDI

April 2022 - August 2022

- Assessed, developed, and maintained websites, focusing on optimization, A/B testing, SEO and design improvements for client sites.
- Acted as Project Manager and UX Designer for the custom development of the project Byron.
- Initiated and built the project **Commons** from scratch as a Frontend Developer, using React.js and Tailwind CSS.

Front End developer / UX UI Designer

Arvolution & Alex

November 2021 - April 2022

- Explored new horizons in UX/UI design at Arvolution, where I worked on the SKAP application safety 360 for ABInBev, supporting over 1000 users.
- As the Frontend Developer for Alex, supported the creation of the 2.0 version of the web app "app.sistemaalex.com" using React.js and Tailwind CSS. Improved responsiveness and refactored several parts of the codebase, creating reusable components and carefully following client software requirements.

Frontend Team leader / UX UI Designer

Codanai Software

May2020 - October 2021

This is a software company where I developed various skills in different areas over time such as:

- Building a customized project from scratch for particular industry clients
- Leader of a Frontend team of 6 programmers on the project "ABG Panel"
- Development leader in the project "Daily Check"
- Founding of the QA area in the company
- Analyst of the project "ABG Panel" (February 2021)
- provided UI/UX training for the team.
